

SAUNA

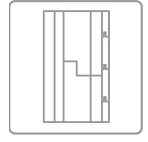

by THERMORY.

Redefine your ritual.

Step into a cocoon of calm, inspired by Luik — “the swan” in Estonian — a symbol of quiet grace on still water. Bespoke, minimalist design meets our signature Kodiak Spruce or Benchmark Ash exterior. Exhale into your moment.

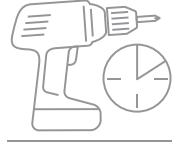

Thermally modified

Extra-thick walls

Weather resistant

Luik Series – Kodiak Spruce

Luik Sauna - Benchmark Ash

The Next Evolution of Heat

Like the swan, the Luik is effortless on the surface, but powerful within. Built with Thermory's premium thermally modified wood and advanced CLT construction, this sauna is a refined expression of strength, performance, and modern design.

CLT subpanels with Luik Sauna - Kodiak Spruce interior Alder wall paneling

Unmatched Strength

Luik saunas are built with cross-laminated timber (CLT) subpanels for increased wall density and strength. A total wall thickness of 5.59" keeps the heat in and the noise out.

Unmatched Wood Performance

We're the largest thermal wood modifier in the world, and our proprietary process yields superior results in every batch. You get the beauty of real wood, naturally enhanced with only heat and steam for unequaled durability and stability. Your sauna never shrinks—even in changing weather conditions. Cedar can't say that.

Dimmable Lighting

Integrated LED lighting creates a soft, calming glow that enhances relaxation and brings warmth to every sauna session, day or night.
